

Supplementary Material 1

The 2968 bibliographic references on Triatominae

This supplementary material includes the full citation of the 2968 bibliographic references on Triatominae complying with the search of the 15 keywords filtered from the BibTri bibliographic database (<http://bibtri.cepave.edu.ar>), hosted by the Centre for the Study of Parasitology and Vectors of the National University of La Plata, Argentina.

Those 15 keywords, available as a special field in the BibTri database, were:

- Age
- Demography
- Density effects
- Diet & foraging
- Fecundity
- Life cycles
- Life tables
- Longevity
- Mortality
- Physiology
- Physiology
- Population growth
- Population parameters
- Survival
- Temperature

(In alphabetical order by first author)

(The number at the end in curly brackets is the references' code for internal use)
