Keywords: epilepsy, axon, RNA editing, potassium channels, glycine receptor, homeostatic regulation, neuropsychiatric disorders, hippocampus

An erratum on

Presynaptic mechanisms of neuronal plasticity and their role in epilepsy by Meier, J. C., Semtner, M., Winkelmann, A., and Wolfart, J. (2014). *Front. Cell. Neurosci.* 8:164. doi: 10.3389/fncel.2014.00164

Due to a production error, in the published article the middle initial for the first author Jochen C. Meier was removed. This error does not change the scientific conclusions of the article in any way. The publisher apologizes for this mistake.

The original article has been updated.

ACKNOWLEDGMENT

Approved by Neuroscience Editorial Office, Frontiers, Switzerland.
