A Corrigendum on

A Probabilistic Framework for Decoding Behavior From *in vivo* Calcium Imaging Data

by Etter, G., Manseau, F., and Williams, S. (2020) *Front. Neural Circuits* 14:19.
doi: 10.3389/fncir.2020.00019

In the original article, there were errors in several equations. Some terms were flipped or omitted.

Corrections have been made to *Results, Extracting Probability Values in a Bayesian Context, Equations 1 and 2*, and *Results, Decoding Behavior Using Activity From Multiple Neurons, Equations 7 and 8*.

The Corrected Equations are Shown Below:

Equation 1:

$$P(A) = \frac{\text{time active}}{\text{total time}}$$

Equation 2:

$$P(S_i) = \frac{\text{time in state } i}{\text{total time}}$$

Equation 7:

$$P(S|A) = \exp\left[\sum_{k=1}^N \log\left(1 + \frac{P(A_k|S) \times P(S)}{P(A_k)}\right) - 1\right]$$

(2020) Corrigendum: A Probabilistic
Framework for Decoding Behavior
From *in vivo* Calcium Imaging Data.
Front. Neural Circuits 14:629162.
doi: 10.3389/fncir.2020.629162

Equation 8:

$$\hat{y} = \arg \max \exp \left[\sum_{k=1}^N \log \left(1 + \frac{P(A_k|S) \times P(S)}{P(A_k)} \right) - 1 \right]$$

The authors apologize for these errors and state that they do not change the scientific conclusions

of the article in any way. The original article has been updated.
