A Corrigendum on

20-HETE Inhibition by HET0016 Decreases the Blood-Brain Barrier Permeability and Brain Edema After Traumatic Brain Injury

by Lu, L., Wang, M., Wei, X., and Li, W. (2018). *Front. Aging Neurosci.* 10:207. doi: 10.3389/fnagi.2018.00207

One of the authors' names was incorrectly spelled. The correct spelling should be: Mingliang Wang. In addition, affiliations 1 and 2 should be changed to ¹Department of Radiology, Nanjing First Hospital, Nanjing Medical University, Nanjing, China, ²Department of Radiology, Shanghai Jiao Tong University Affiliated Sixth People's Hospital, Shanghai, China. The authors apologize for these errors and state that this does not change the results of the research in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
