KEYWORDS

Alzheimer's disease, atomic force microscopy, brain tissue elasticity, healthy aging, hippocampus

A corrigendum on

Hippocampus of the APP^{NL-G-F} mouse model of Alzheimer's disease exhibits region-specific tissue softening concomitant with elevated astrogliosis

by Hall, C. M., Lasli, S., Serwinski, B., Djordjevic, B., Sheridan, G. K., and Moeendarbary, E. (2023). *Front. Aging Neurosci.* 15:1212212. doi: 10.3389/fnagi.2023.1212212

In the published article, there was an error regarding the affiliation for [Bianca Serwinski]. As well as having affiliation(s) [1 and 3] they should also have [Faculty of Social Sciences, Northeastern University London, London, United Kingdom].

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
