IncMGPF, SNPs, meat production traits, RNA stability, pig

A Corrigendum on Single nucleotide polymorphisms of porcine Incmgpf regulate meat production traits by affecting rna stability

by Lv W, Zhao S, Hou Y, Tong Q, Peng Y, Li J, Xu Z and Zuo B (2021). *Front. Cell Dev. Biol.* 9:731712.
doi: 10.3389/fcell.2021.731712

In the published article, there was a mistake in the **Funding** statement. The project number in the funding of the Natural Science Foundation of Hubei Province to Bo Zuo was not included. The correct **Funding** statement appears below.

“This work was financially supported by the Science and Technology Major Project of Hubei Province (2020ABA016), the joint fund between Huazhong Agricultural University and Agricultural Genomics Institute at Shenzhen, Chinese Academy of Agricultural Sciences (SZYJY2021009), the Natural Science Foundation of Hubei Province to Bo Zuo (2021CFA018), and the Agricultural Innovation Fund of Hubei Province (2016-620-000-001-043).”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
