Frontiers Editorial Office*

A Retraction of the Original Research Article

Improving the melting performance in a triple-pipe latent heat storage system using hemispherical and quarter-spherical fins with a staggered arrangement

by Abed AM, Mohammed HI, Patra I, Mahdi JM, Arshad A, Sivaraman R, Ibrahim RK, Al-Qrimli FA, Dhahbi S and Talebizadehsardari P (2022). *Front. Chem.* 10:1018265. doi: [10.3389/fchem.2022.1018265](https://doi.org/10.3389/fchem.2022.1018265)

The journal retracts the 2022 article cited above.

Following publication, concerns were raised regarding the contributions of the authors of the article. Our investigation, conducted in accordance with Frontiers policies, confirmed a serious breach of our authorship policies and of publication ethics; the article is therefore retracted.

This retraction was approved by the Chief Editors of Frontiers in Chemistry and the Chief Executive Editor of Frontiers. The authors do not agree to this retraction.
