

Corrigendum: Erosion Rate of Lateral Slope Deposit Under the Effects of Different Influencing Factors

Yonggang Ge^{1,2}, Xiaojun Guo^{1,2*}, Meiqiang Zhan³ and Hua Yan¹

¹Key Laboratory of Mountain Hazards and Surface Process/Institute of Mountain Hazards and Environment, Chinese Academy of Sciences, Chengdu, China, ²CAS Center for Excellence in Tibetan Plateau Earth Sciences, Beijing, China, ³China Railway Changjiang Transport Design Group Co., Ltd, Chongqing, China

Keywords: lateral deposit, soil failure, erosion rate, runoff, slope

A Corrigendum on:

Erosion Rate of Lateral Slope Deposit Under the Effects of Different Influencing Factors
by Ge Y., Guo X., Zhan M., Yan H., Liao Y. and Yu B. (2021). *Front. Earth Sci.* 9:670087. doi:10.3389/feart.2021.670087

In the published article, we had included Yansen Liao and Bin Yu as authors. They, however, have had limited contributions to the article and do not cover the complete requirement criteria for authorship. Therefore, they have been removed from the list of authors. The corrected **Author Contributions** statement appears below.

Further, there is an error in the **Acknowledgments** statement. In the original article, we included the funder “open funding (SKLGP2017K013).” This funder has now been removed. The corrected **Acknowledgments** statement appears below.

AUTHOR CONTRIBUTIONS

YG: contributions to the conception, design of the work; drafting and revising the manuscript, and provides the finance support. XG: contributions to the conception, design of the work; analyzing the data, drafting and revising the manuscript. MZ: contributions to the experiments and initial data analysis. HY: contributions to the experiments and initial data analysis.

ACKNOWLEDGMENTS

This research is supported by the NSFC (41790432 and 41977257), Strategic Priority Research Program of the CAS (XDA23090203), and Western Light of Young Scholars, CAS. We thank James Buxton MSc from Liwen Bianji, Edanz Group, China (www.liwenbianji.cn/ac), for editing the English text of this manuscript.

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
