A Corrigendum on Magma storage conditions beneath Krakatau, Indonesia: insight from geochemistry and rock magnetism studies

by Pratama A, Nurfiani D, Suryanata PB, Ismail T, Bunga Naen GNR, Abdurrachman M, Supriyadi Banggur WF, Asri NS, Nareswari RB, Bijaksana S, Hanif M, Kriswati E, Kurniawan IA and Setiawan NI (2023). *Front. Earth Sci.* 11:1128798. doi: 10.3389/feart.2023.1128798

In the published article, there was an error. The **Acknowledgments** section was incomplete. The updated statement appears below.

Acknowledgments

Permission to conduct field research at Krakatau volcano was given by the BKSDA (Balai Konservasi Sumber Daya Alam or Natural Resource Conservation Center) of Bengkulu-Lampung, Indonesia. Our thanks also go to Muhammad Zain Tuakia, Windi Anarta Draniswari, Cinantya Nirmala Dewi, and Mohammad Hasib for the fruitful discussion and their assistance with the laboratory work. We are grateful to Petrography Laboratory of Balai Penyelidikan dan Pengembangan Teknologi

Kebencanaan Geologi (BPPTKG), CVGHM, Geological Agency of Indonesia, for helping us making thin sections, Tri Rahmawati for her assistance during the EPMA analysis and Gareth Fabbro for English language editing.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
