## KEYWORDS

gravelly soil, liquefaction, reduced error pruning tree, random forest, dynamic penetration test, logistic model tree, random tree

## A Corrigendum on

[The performance comparison of the decision tree models on the prediction of seismic gravelly soil liquefaction potential based on dynamic penetration test](#)

by Ahmad M, Alsulami BT, Hakamy A, Majdi A, Alqurashi M, Sabri Sabri MM, Al-Mansob RA and Bin Ibrahim MR (2023). *Front. Earth Sci.* 11:1105610. doi: [10.3389/feart.2023.1105610](https://doi.org/10.3389/feart.2023.1105610)

In the published article, the **Funding** statement was incorrect. The correct statement appears below.

“This research was supported by a grant from the Russian Science Foundation No. 22-79-10021, <https://rscf.ru/project/22-79-10021/>.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
