## KEYWORDS

**Banqiao area, structural geological modeling, database, fault-bound traps, fault-controlled hydrocarbon accumulation**

## A Corrigendum on

[Research on fault-controlled hydrocarbon accumulation in rifted lacustrine basins based on structural geological modeling: a case study of the Banqiao area in Bohai Bay Basin, China](#)

by Chen Y, Liu H, Jiang Z, Sun J, Zhao C, Jiang W, Dong X and Li H (2024). *Front. Earth Sci.* 11:1273223. doi: 10.3389/feart.2023.1273223

In the published article, there was an error in the **Funding** statement. One of the funders was missing. The correct Funding statement appears below.

“The author(s) declare that financial support was received for the research, authorship, and/or publication of this article. This research was funded by

the 14th Five-Year Major Project of PetroChina Co., Ltd., titled “Research on Exploration and Evaluation Technology of Buried Hill Interior and Complex Fault Block Oil and Gas Reservoirs” (grant number: 2021DJ-07-01) and the National Key Research and Development Program of China (grant number 2023YFF0804303).”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
