# Corrigendum: Mitochondrial and apicoplast genome copy abundances of haemosporidian parasites are explained by host species and parasitic lineage

Tim Brandler<sup>1,2</sup> and Nayden Chakarov<sup>2,3\*</sup>

<sup>1</sup>Department of Paleontology, GeoZentrum Nordbayern, Friedrich-Alexander University, Erlangen, Germany, <sup>2</sup>Department of Animal Behaviour, Bielefeld University, Bielefeld, Germany, <sup>3</sup>Joint Institute for Individualisation in a Changing Environment (JICE), University of Münster and Bielefeld University, Bielefeld, Germany

## KEYWORDS

genome copy abundance, chloroplasts, mitochondria, gametocyte sex ratio, avian malaria, endosymbiosis, black queen, apicomplexa

## A Corrigendum on

[Mitochondrial and apicoplast genome copy abundances of haemosporidian parasites are explained by host species and parasitic lineage](#)

By Brandler T and Chakarov N (2024). *Front. Ecol. Evol.* 12:1305418. doi: 10.3389/fevo.2024.1305418

In the published article, there was an error in the **Funding** statement. It was stated that no financial support was received for the research, authorship, and/or publication of this article. The correct **Funding** statement appears below.

The author(s) declare that financial support was received for the research, authorship, and/or publication of this article. We acknowledge the financial support of the German Research Foundation (DFG) and the Open Access Publication Fund of Bielefeld University for the article processing charge. This work was supported by the DFG, as part of the SFB TRR 212 (NC<sup>3</sup>) – Project numbers 316099922 and 396780709; DFG project number 398434413; and DFG project number 433069365. The funding body played no role in the design of the study and collection, analysis, interpretation of data, and in writing the manuscript.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
