## ACKNOWLEDGMENTS

I am extremely grateful to the 2018/2019 BC3003 students, as well as those from previous years, who have contributed their creativity and hard work in such a positive way to the development of this role-play format. I also thank Dr. Kellie Dean, as well as the attendees of a Technology Enhanced Learning session at University College Cork for critical insights and ideas that have contributed to this paper. I acknowledge the support of a publication grant from the National University of Ireland toward the publication costs of this article.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
