of Short-Stature Patients With
Collagen Gene Mutation and the
Therapeutic Response to rhGH.
Front. Endocrinol. 13:896742.
doi: 10.3389/fendo.2022.896742

In the **Results**, subsection “Comparison of Collagen Gene-Related Short Stature With Other Short Stature Genes and Growth Response to rhGH Treatment”, paragraph 2 as published originally, **Table 4** was incorrectly cited. The following sentence “A total of 121 affected individuals diagnosed genetically are shown in **Table 3**.” should have read “A total of 121 affected individuals diagnosed genetically are shown in **Table 4**.”

Also, in the **Results**, subsection “Comparison of Collagen Gene-Related Short Stature With Other Short Stature Genes and Growth Response to rhGH Treatment”, final paragraph, incorrect height Z scores were presented.

The sentences “In ACAN-related short stature, rhGH treatment significantly increased height and the height Z score (from -2.9 ± 1.0 to 0.6 ± 0.7) after 2.8 ± 0.4 years of administration. For NPR2-related short stature, height Z scores were significantly improved from 3.1 ± 0.8 to 2.0 ± 1.0 after 3.8 ± 0.6 years of treatment.” should have read “In ACAN-related short stature, rhGH treatment significantly increased height and the height Z score (from -2.9 ± 1.0 to -2.2 ± 1.1) after 2.8 ± 0.4 years of administration. For NPR2-related short stature, height Z scores were significantly improved from -3.1 ± 0.8 to -2.0 ± 1.0 after 3.8 ± 0.6 years of treatment.”
