KEYWORDS

methane hydrate, discharge resistance, damage degree, porous medium, depressurization, ambient condition

A Corrigendum on

Gas discharge resistance and medium damage degree as hydrate dissociation at different ambient conditions

by Chen X, Zhang P, Wu Q, Zhang L, Li S, Zhan J and Wang Y (2021). *Front. Energy Res.* 9:712156.
doi: 10.3389/fenrg.2021.712156

In the published article, there was an error regarding the **Affiliation** for “Xueping Chen.” As well as having affiliation 1, they should also have affiliation 2, “University of Chinese Academy of Sciences, Beijing, China.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
