## KEYWORDS

adopting E-wallet, low distribution charges, low transit time, impulsive buying, environmental sustainability

**A Corrigendum on:**

**Adoption of digital money (e-wallet) in the post COVID-19 era: The moderating role of low distribution charges and low transit time in impulsive buying: A developing country perspective**

by Wei Q, Xiao W, Yaqub RMS, Irfan M, Murad M and Yaqub MZ (2023). *Front. Environ. Sci.* 10: 984316. doi: 10.3389/fenvs.2022.984316

In the published article, there was an error in **Affiliation 1**. Instead of “MinNan Science and Technology University, Quanzhou, China”, it should be “College of Business, MinNan Science and Technology University, Quanzhou, China.”

There was also a mistake in the **Funding statement**. The funding statement for the Key Development Project of the Department of Science and Technology was displayed as “2015CBd051”. The correct statement is “Key Development Project of Department of Science and Technology (2015C03Bd051).”

## Funding

This research project was funded by Beijing Municipal Philosophy and Social Science Planning Office “Research on the Coordinated Development of Beijing–Tianjin–Hebei Financial

Agglomeration and Industrial Structure Upgrading” (16YJB037) and Key Development Project of Department of Science and Technology (2015C03Bd051).

The authors apologize for these errors and state that they do not change the scientific conclusions of the article in any way. The original article has been updated.
