## KEYWORDS

Cytokinin (CK), CK metabolic genes, CK signaling genes, abiotic stress, crop resilience, genome editing

## A Corrigendum on Cytokinin and abiotic stress tolerance -What has been accomplished and the way forward?

by Mandal S, Ghorai M, Anand U, Samanta D, Kant N, Mishra T, Rahman MH, Jha NK, Jha SK, Lal MK, Tiwari RK, Kumar M, Radha, Prasanth DA, Mane AB, Gopalakrishnan AV, Biswas P, Proćków J and Dey A (2022). *Front. Genet.* 13:943025. doi: 10.3389/fgene.2022.943025

In the published article, there was an error in **affiliation 3**. Instead of “Department of Life Sciences, Ben-Gurion University of the Negev, Beer-Sheva, Israel”, it should be “CytoGene Research & Development LLP, Barabanki, Uttar Pradesh, India”.

A corresponding correction has also been made to the **Conflict of interest**. The statement previously stated:

“The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The corrected statement appears below:

“Author UA was employed by the company CytoGene Research & Development LLP. The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
