Corrigendum on Medical residency in Portugal: a cross-sectional study on the working conditions

By Chen-Xu J, Miranda Castilho B, Moura Fernandes B, Silva Gonçalves D, Ferreira A, Gonçalves AC, Ferreira Vieira M, Silva AM, Borges F, Paes Mamede M (2023). Front. Health Serv. 3:1190357. doi: 10.3389/frhs.2023.1190357

Error in Figure/Table

In the published article, there was an error in [Table 3](#) as published. The third line of the first column reads “1–500”, however it should read “1–1,000”. The corrected [Table 3](#) and its caption appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

Text Correction

In the published article, there was an error. In the sub-section “Medical Training” from the Results section, there is a typo in the text.

A correction has been made to **Results, Medical Training**, Paragraph 2. This sentence previously stated:

“Most RDs ($n = 795$, 39.6%) reported spending up to EUR 500 per year in further training, followed by EUR 1,001–1,500 ($n = 391$, 19.5%) and EUR 1,501–2,000 ($n = 294$, 14.7%).”

The corrected sentence appears below:

“Most RDs ($n = 795$, 39.6%) reported spending up to EUR 1,000 per year in further training, followed by EUR 1,001–1,500 ($n = 391$, 19.5%) and EUR 1,501–2,000 ($n = 294$, 14.7%).”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

TABLE 3 Annual spending on training during residency.

Annual spending on training (EUR)	Number (percentage)
0	2 (0.1%)
1–1,000	795 (39.6%)
1,001–1,500	391 (19.5%)
1,501–2,000	294 (14.7%)
2,001–2,500	182 (9.1%)
2,501–3,000	107 (5.3%)
>3,000	235 (11.7%)
