temporary protection status, temporariness, primary education, language, Turkey, Syrian refugee children

A corrigendum on

Uncertainties shaping parental educational decisions: The case of Syrian refugee children in Turkey

by Karaagac, D., Bilecen, B., and Veenstra, R. (2022). *Front. Hum. Dyn.* 4:920229.
doi: 10.3389/fhumd.2022.920229

In the published article, there was an error in the **Data availability statement**. The **Data availability statement** was displayed as “The raw data supporting the conclusions of this article will be made available by the authors, without undue reservation.” The correct **Data availability statement** appears below.

Data availability statement

“The raw data supporting the conclusions of this article cannot be made available by the authors on the grounds of GDPR and in accordance with the Confidential Data Sharing Protocol. Queries regarding the data should be addressed to the corresponding author.”

In the published article, there was an error in **Ethics statement**. In this way, it seemed that the research protocol has been approved by an individual rather than a committee:

“The studies involving human participants were reviewed and approved by Dr. Marijtje A.J. van Duijn Groningen University. The patients/participants provided their written informed consent to participate in this study.”

The correct statement is:

Ethics statement

“The studies involving human participants were reviewed and approved by Prof. Dr. Marijtje A. J. van Duijn, the head of the Research Ethics Committee at the Department of Sociology at University of Groningen. The participants provided their written informed consent to participate in this study.”

In the published article, there were two errors. In the last paragraph of **Research design and methods** section, the name of the university, which was omitted for peer review, was not added. A correction has been made to **Research design and methods**, paragraph four. The corrected sentence appears below:

“An ethical approval covering the research protocol, consent letter, and interview questions was obtained from the University of Groningen.”

The citation “Durstun et al., 2019” and its reference “Durstun, S., Duncalf, J., Alkassem, M., and Serdar, F. (2019). *Evaluation of UNICEF’s support to Education Personnel in the Syria Crisis Response in Turkey*” has been removed. A correction has been made to **Introduction**, “Situation of Syrian children in Turkey”, paragraph three:

“Even though adapting the policy for full accession to national schools seems to aim a long -term integration of Syrian children, continuing to provide temporary protection status implies temporariness.”

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
