bronchopulmonary dysplasia, monocytes, cytokines, preterm infants, prenatal injury, chronic lung disease

A Corrigendum on

Monocyte signature as a predictor of chronic lung disease in the preterm infant

by Windhorst AC, Heydarian M, Schwarz M, Oak P, Förster K, Frankenberger M, Gonzalez Rodriguez E, Zhang X, Ehrhardt H, Hübener C, Flemmer AW, Hossain H, Stoeger T, Schulz C and Hilgendorff A (2023) *Front. Immunol.* 14:1112608. doi: 10.3389/fimmu.2023.1112608

In the published article, there was an error in the Funding statement. The funding statement for the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) was displayed as “TRR 369”. The correct Funding statement appears below.

“The present study was supported by the National Genome Research Network (NGFN; IE-S08T03), the Pneumonia Research Network on Genetic Resistance and Susceptibility for the Evolution of Severe Sepsis (PROGRESS; 01KI07110), the Young Investigator Grant (Helmholtz Association; VH-NG-829), the German Center for Lung Research (DZL;

BMBF) and Stiftung AtemWeg (Lung Science Foundation, Project LSS AIRR). Work was supported by the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) - TRR 359 - Project number 491676693.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
