lupus nephritis, L-selectin, urinary biomarker, renal histopathology, treatment response

A Corrigendum on

Urine L-selectin reflects clinical and histological renal disease activity and treatment response in lupus nephritis across multi-ethnicity

by Shen Y, Vanarsa K, Yin Z, Zhang T, Castillo J, Dai M, Zou L, Qin L, Wang J, Guo Q, Saxena R, Petri M, Shen N, Ye Z, Mohan C and Ding H (2023) *Front. Immunol.* 14:1200167. doi: 10.3389/fimmu.2023.1200167

In the published article, there was an error. In the results section of the abstract, there is an error in the statement.

A correction has been made to the Abstract, Results section, Sentence 2. This sentence previously stated:

“uL-selectin positively correlated with global and renal disease activities as well as histological activity index and chronicity index (CI).”

The corrected sentence appears below:

“uL-selectin positively correlated with global and renal disease activities and was significantly associated with histological activity index and chronicity index (CI).”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
