Complexes (MSC) UMR CNRS 7057, Université Paris Cité, Paris, France

## KEYWORDS

extracellular vesicles, secretome, immune regulation, mesenchymal stromal cell,  
priming, systemic lupus erythematosus

## A Corrigendum on

**Mesenchymal stromal cell derived extracellular vesicles as a therapeutic  
tool: immune regulation, MSC priming, and applications to SLE**

by Wong C, Stoilova I, Gazeau F, Herbeuval J-P and Fourniols T (2024). *Front. Immunol.*  
15:1355845. doi: 10.3389/fimmu.2024.1355845

In the published article, there was an error in the Funding statement. A funding  
information was not included in the article. The correct Funding statement appears below.

## Funding

The author(s) declare financial support was received for the research, authorship, and/  
or publication of this article. CW is a student from the FIRE PhD program funded by the  
Bettencourt Schueller foundation and the EURIP graduate program (ANR-17-EURE-  
0012). IS is a student from the MTCI PhD program, and this work was supported by the  
Fondation pour la Recherche Médicale, grant number ECO202306017404.

The authors apologize for this error and state that this does not change the scientific  
conclusions of the article in any way. The original article has been updated.
