Retraction: Ghrelin alleviates intestinal dysfunction in sepsis through the KLF4/MMP2 regulatory axis by activating SIRT1

Frontiers Editorial Office*

A Retraction of the Original Research Article

Ghrelin alleviates intestinal dysfunction in sepsis through the KLF4/MMP2 regulatory axis by activating SIRT1

By Li B, Dou Z, Zhang L, Zhu L, Cao Y and Yu Q (2021). *Front. Immunol.* 12:646775. doi: 10.3389/fimmu.2021.646775

Please, find the retraction statement below:

“Following publication, concerns were raised regarding the integrity of the images in the published figures OR regarding the validity of the data presented in the article. The authors failed to provide the raw data or a satisfactory explanation during the investigation, which was conducted in accordance with Frontiers’ policies. Given the concerns about the validity of the data, and the lack of raw data, the editors no longer have confidence in the findings presented in the article.

This retraction was approved by the Chief Executive Editor of Frontiers. The authors received a communication regarding the retraction and had a chance to respond. This communication has been recorded by the publisher”.
