Retraction: X-linked immunodeficient mice with no functional Bruton's tyrosine kinase are protected from sepsisinduced multiple organ failure

Frontiers Editorial Office*

A Retraction of the Original Research Article

X-linked immunodeficient mice with no functional Bruton's tyrosine kinase are protected from sepsis-induced multiple organ failure

By O'Riordan CE, Purvis GSD, Collotta D, Krieg N, Wissuwa B, Sheikh MH, Ferreira Alves G, Mohammad S, Callender LA, Coldewey SM, Collino M, Greaves DR and Thiemermann C (2020) *Front. Immunol.* 11:581758. doi: 10.3389/fimmu.2020.581758

Following publication, concerns were raised regarding the integrity of the images in the published figures. Specifically, unexpected similarity was detected between western blot images presented in Figure 5. An investigation was conducted in accordance with Frontiers' policies. The authors provided raw data for assessment, but the concerns could not be fully resolved. As a result, the data and conclusions of the article have been deemed unreliable and the article has been retracted.

This retraction was approved by the Chief Editors of Frontiers in Immunology and the Chief Executive Editor of Frontiers. The authors disagree with the retraction.

Frontiers would like to thank Aneurus Inconstans for contacting the journal regarding the published article.
