Retraction: Junior secondary school students' motivation for learning multiple foreign languages in Burundi: a cross-sectional study

Frontiers Editorial Office*

A Retraction of the Original Research Article

Junior secondary school students' motivation for learning multiple foreign languages in Burundi: a cross-sectional study

by Nizigama, E., Fazilatfar, A. M., and Jabbari, A. A. (2023). *Front. Lang. Sci.* 2:1174855. doi: 10.3389/flang.2023.1174855

The journal retracts the 19th June 2023 article cited above.

Following publication, concerns were raised about the duplicate publication of the article cited above in *Frontiers in Language Sciences* and *The International Journal of Research in English Education* (<http://dorl.net/dor/20.1001.1.25384015.2023.8.2.3.1>).

An investigation was conducted in accordance with Frontiers' policies, whereby it was confirmed that the authors submitted the manuscript for consideration in two journals simultaneously. This is a breach of Frontiers' guidelines and those of the Committee on Publication Ethics. This article is therefore retracted.

This retraction was approved by the Chief Editors of *Frontiers in Language Sciences* and the Chief Executive Editor of Frontiers. The authors agree to this retraction.
