In the original article, there was a mistake in **Table 2** as published. The median value of the mTL was not 3.65 but instead 3.16. The corrected **Table 2** appears below. The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

**Conflict of Interest Statement:** The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
