KEYWORDS

hydrodynamic performance, wake study, CFD simulation, dynamic coupling analysis, SUBOFF geometry

A Corrigendum on

Hydrodynamic performance and wake study of an UUV sailing near the free surface

By Zhang D, Zhao B and Sun J (2024). *Front. Mar. Sci.* 11:1292874. doi: 10.3389/fmars.2024.1292874

In the published article, there were errors. The word “submarine” should not appear in the text, it should be “UUV”.

This correction applies to all instances of the word “submarine” which appear in the Title, Abstract, and sections 1 Introduction, 3 Numerical model set-ups, 3.1 Calculation model and domain, 5 Results and discussion, 5.3 Free surface, and 6 Conclusion.

In the title it appears once. In the Abstract, it appears three times. In the Introduction, it appears 35 times. In Section 3.1, it appears once. In Section 5.3, it appears nine times. In Conclusion, it appears three times.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
