KEYWORDS

Dunaliella parva, AP2, yeast two-hybrid system, interacting proteins, carotenoid biosynthesis

A Corrigendum on:

[Identification of interacting proteins of transcription factor DpAP2 related to carotenoid biosynthesis from marine microalga *Dunaliella parva*](#)

By Shang C, Pang B, Zhang J, Yu L, Gan S, Li Y and Wu H (2022). *Front. Mar. Sci.* 9:907065. doi: 10.3389/fmars.2022.907065

In the published article, there was an error in the Funding statement. The grant number for National Training Program of Innovation and Entrepreneurship for Undergraduates was displayed as (202210602064). The correct grant number is (202210602035). The correct Funding statement appears below.

This study was financially supported by National Natural Science Foundation of China (31860010), Innovation Project of Guangxi Graduate Education (YCSW2022178 and XJCY2022011), National Training Program of Innovation and Entrepreneurship for Undergraduates (202210602035), Guangxi Key Research and Development Program (AB21220057, 2021AB27009), Research Funds of the Guangxi Key Laboratory of Landscape Resources Conservation and Sustainable Utilization in Lijiang River Basin, Guangxi Normal University (LRCSU21Z0207), Research Funds of Key Laboratory of Ecology of Rare and Endangered Species and Environmental Protection (Guangxi Normal University), Ministry of Education, China (ERESEP2022Z11).

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
