## KEYWORDS

titanium, plasma electrolytic oxidation, surface characterization, coating, biological activity

## A Corrigendum on A cytocompatible microporous Sr-doped titanium dioxide coating fabricated by plasma electrolytic oxidation

by Zheng H, He S, Zhou L, Yuan J, Jiang B, Ni X, Lu K, Zhang P and Zhao Q (2023). *Front. Mater.* 10:1210728. doi: 10.3389/fmats.2023.1210728

In the published article, there was an error regarding the **Affiliation** of author Quanming Zhao.

Instead of “<sup>3</sup> Department of Orthopedics, Guizhou Provincial People's Hospital, Guiyang, Guizhou, China,” it should be “<sup>2</sup> Department of Orthopedics, Dafeng People's Hospital, Yancheng, Jiangsu, China.”

In the published article, there was an error in the **Funding** statement. In the statement the funder and grant number was incorrectly written as “Guizhou Provincial Science and Technology Projects (ZK [2022] general 267).” The correct Funding statement appears below.

## Funding

This work was supported by Guizhou Province Excellent Young Science and Technology Talents Project (YQK [2023] 022), Key Research and Development (Key R&D) plan of Jiangsu Province—social development (BE2021683), Guiyang Science and Technology Plan Project (grant number [2023] 48-23), Guizhou provincial people's hospital fund (grant numbers GZSYBS [2022] 01 and GZSYQN [2022] 03).

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
