# Corrigendum: The application of virtual synchronous generator technology in inertial control of new energy vehicle power generation

Meng Du<sup>1</sup> and Hailong Mei<sup>2\*</sup>

<sup>1</sup>College of Transportation Engineering, Changzhou Vocational Institute of Mechatronic Technology, Changzhou, China, <sup>2</sup>Component Testing and Research Department, China Automotive Technology and Research Center (Changzhou) Co., Ltd., Changzhou, China

## KEYWORDS

virtual synchronous generator, inertia, new energy, automobile power generation, control system, smart grid, stability

## A Corrigendum on

[The application of virtual synchronous generator technology in inertial control of new energy vehicle power generation](https://doi.org/10.3389/fmech.2024.1382664)

by Du M and Mei H (2024). *Front. Mech. Eng.* 10:1382664. doi: [10.3389/fmech.2024.1382664](https://doi.org/10.3389/fmech.2024.1382664)

In the published article, there was an error in the **Funding** statement. The author(s) declare that no financial support was received for the research, authorship, and/or publication of this article.

The correct **Funding** statement appears below.

## Funding

The author(s) declare that financial support was received for the research, authorship, and/or publication of this article. This research was supported by 2023 Jiangsu Province Youth Teacher Enterprise Practice Training Project (2023QYSJ006).

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
