A Corrigendum on

A Survey Using High-Throughput Sequencing Suggests That the Diversity of Cereal and Barley Yellow Dwarf Viruses Is Underestimated

by Sõmera, M., Massart, S., Tamisier, L., Sooväli, P., Sathees, K., and Kvarnheden, A. (2021). *Front. Microbiol.* 12:673218. doi: 10.3389/fmicb.2021.673218

In the original article, there was a typographical mistake in **Table 1** as published. The sequence of Yan-R primer should read “TGTTGAGGAGTCTACCTATTG”. The Yan-R primer sequence was given correct in the Supplementary Table 2. The correct Yan-R primer was used in experiments undertaken in this study and thus it does not impact on validity of the results. The corrected **Table 1** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

TABLE 1 | Primers used in the current study.
