KEYWORDS

hyperoxia, metagenomic sequencing, gut microbiome, gut metabolome, gut dysbiosis, serum metabolome, *Muribaculaceae*, linoleic acid metabolism

A corrigendum on

Functional metagenomic and metabolomics analysis of gut dysbiosis induced by hyperoxia

by Cai, Y., Luo, Y., Dai, N., Yang, Y., He, Y., Chen, H., Zhao, M., Fu, X., Chen, T., and Xing, Z. (2023). *Front. Microbiol.* 14:1197970. doi: 10.3389/fmicb.2023.1197970

In the section **Methods**, subsection *Fecal and serum metabolomics analysis*, the repository name and accession numbers were incorrect. The sentence previously stated: “The data presented in this study were deposited in MetaboLights (accession number: MTBLS8466, MTBLS8400).”² The correct sentence is: “The data presented in this study were deposited in the China National Center for Bioinformation, accession number: PRJCA022612.”¹ As a result of this correction, the footnotes have also been corrected to remove “<https://www.ebi.ac.uk/metabolights/>.” The correct footnotes are as follows:

¹ <https://www.cncb.ac.cn/>

² www.biocloud.net

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
