In the published article Dr. Westover's disclosure statement was inadvertently omitted. The disclosure should read:

“BW has private equity as co-founder of Beacon Biosignals and receives compensation for consulting and scientific advisory roles.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The authors apologize for this omission and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
