A corrigendum on

Morphological feature and mapping inflammation in classified carotid plaques in symptomatic and asymptomatic patients: a hybrid ^{18}F-FDG PET/MR study

by Zhang, Y., Cui, B., Yang, H., Ma, J., Yang, Y., Yang, B., Ma, Y., Jiao, L., Li, X., and Lu, J. (2023). Front. Neurosci. 17:1144248. doi: 10.3389/fnins.2023.1144248

In the published article, there was an error in Patients population of Table 2 as published. There was some missing information in Table 2 during the process of uploading the Table 2. The corrected Patients population of Table 2 and its caption * [Note: Compared with the asymptomatic and symptomatic group, $P < 0.05$.] appear below.

In the published article, there was an error in Morphology of carotid atherosclerotic plaques on high resolution MRI of Table 4 as published. The positions of the symptomatic and asymptomatic groups in Table 4 were reversed. The corrected Morphology of carotid atherosclerotic plaques on high resolution MRI of Table 4 and its caption * [Note: Compared with the asymptomatic and symptomatic group, $P < 0.05$.] appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
