Retraction: Effect and potential mechanism of *Lactobacillus plantarum* Q7 on hyperuricemia *in vitro* and *in vivo*

Frontiers Editorial Office*

A Retraction of the Original Research Article

Effect and potential mechanism of *Lactobacillus plantarum* Q7 on hyperuricemia *in vitro* and *in vivo*

by Cao, J., Bu, Y., Hao, H., Liu, Q., Wang, T., Liu, Y., and Yi, H. (2022) *Front. Nutr.* 9:954545. doi: 10.3389/fnut.2022.954545

The journal retracts the July 2022 article cited above.

Following publication, concerns were raised regarding the duplicate publication of data in the article cited above in *Frontiers in Nutrition* and an article published in *Frontiers in Immunology* by Cao J, Liu Q, Hao H, Bu Y, Tian X, Wang T and Yi H (2022) *Lactobacillus paracasei* X11 Ameliorates Hyperuricemia and Modulates Gut Microbiota in Mice. *Front. Immunol.* 13:940228. doi: 10.3389/fimmu.2022.940228. An investigation was conducted in accordance with Frontiers' policies, which confirmed the concerns. Following the Committee on Publication Ethics guidelines, this article is retracted.

The authors received a communication regarding the retraction and had a chance to respond. This communication is recorded by the publisher.
