clinicopathological features, immune markers

A Corrigendum on

Correlation analysis of MRD positivity in patients with completely resected stage I-IIIa non-small cell lung cancer: a cohort study

by Dong D, Zhang S, Jiang B, Wei W, Wang C, Yang Q, Yan T, Chen M, Zheng L, Shao W and
Xiong G (2023) *Front. Oncol.* 13:1222716. doi: 10.3389/fonc.2023.1222716

In the published article, there was an error regarding the affiliation for the author Gang Xiong. Instead of Gang Xiong^{1,2*}, it should be Gang Xiong^{1*}.

In addition, there was an error in Supplementary Data Sheet 1.zip (Table 3). The Supplementary material contains sensitive information about the patient that has not been deleted, and some of the descriptions in the table have not been converted to English, which will affect the reader's reading experience. The correct supplementary material statement appears below.

Table 3 Patient baseline information and MRD status

The authors apologize for these errors and state that these do not change the scientific conclusions of the article in any way. The original article has been updated.
