Roger A. Kautz was not included as an author in the published article. The corrected **Author Contributions** Statement appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

AUTHOR CONTRIBUTIONS

CH: Designed and conducted experiments. XM and VJ: Metabolite scale up and NMR experiments. JW: Conducted animal PK experiments and data analysis. SK, AZ, and MM: Synthesized compound for studies and metabolite M1 for confirmation. RK and DS: assisted in setting up the microcoil probe and troubleshooting. CH, XM, and JG: Analyzed data and wrote the manuscript. JG and AM: Principal investigators oversaw the project, provided lab resources, and edited the manuscript.
