## KEYWORDS

colitis, A<sub>2A</sub> agonist, PDRN, inflammation, apoptosis

## A Corrigendum on

[Adenosine receptor stimulation by polydeoxyribonucleotide improves tissue repair and symptomology in experimental colitis](#)

by Pallio G, Bitto A, Pizzino G, Galfo F, Irrera N, Squadrito F, Squadrito G, Pallio S, Anastasi GP, Cutroneo G, Macri A and Altavilla D (2016). *Front. Pharmacol.* 7:273. doi: 10.3389/fphar.2016.00273

In the published article, the Conflict of Interest statement was incorrectly filed. The correct Conflict of Interest statement appears below.

“Author FS has received research support from Mastelli for work on polydeoxyribonucleotide. Authors FS, AB and DA are co-inventors on a patent describing therapeutic polydeoxyribonucleotide activity in chronic intestinal disease.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
