diabetic nephropathy, mesenchymal stem cells, bone marrow-derived mesenchymal stem cells, diabetes, apoptosis, ER stress, inflammation, intermediate filament proteins

A Corrigendum on

BM-MSCs alleviate diabetic nephropathy in male rats by regulating ER stress, oxidative stress, inflammation, and apoptotic pathways

by Khamis T, Abdelkhalek A, Abdellatif H, Dwidar N, Said A, Ahmed R, Wagdy K, Elgarhy R, Eltahan R, Mohamed H, Said Amer E, Hanna M, Ragab T, Kishk A, Wael J, Sarhan E, Saweres L, Reda M, Elkomy S, Mohamed A, Samy A, Khafaga A, Shaker Y, Yehia H, Alanazi A, Alassiri M, Tirziu E, Bucur IM and Arisha AH (2023). *Front. Pharmacol.* 14:1265230. doi: 10.3389/fphar.2023.1265230

In the published article, there was an error in [Figure 1](#) as published. In the published version of the manuscript, there was an unintentional duplication of [Figure 1E](#), which resulted in [Figure 1D](#) being covered. This duplication occurred due to a technical error during the formatting process. The corrected [Figure 1](#) and its caption appear below.

In the published article, the **Supplementary Table S2** was mistakenly not included in the publication. The missing material contains the raw data of the article. This is now published alongside the original article.

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
