KEYWORDS

bio-physical water productivity, drip fertigation, economic water productivity, nitrogen use efficiency, surface flood method, water use efficiency

A Corrigendum on

Sub-surface drip fertigation improves seed cotton yield and monetary returns

by Singh K, Singh P, Singh M, Mishra SK, Iqbal R, Al-Ashkar I, Habib-ur-Rahman M and El Sabagh A (2022) *Front. Plant Sci.* 13:1038163. doi: 10.3389/fpls.2022.1038163

In the published article, there was an error in affiliation 3. Instead of “Center for Plant Science and Biodiversity, University of Swat, Charbagh, Pakistan”, it should be “Department of Agronomy, Faculty of Agriculture and Environment, The Islamia University of Bahawalpur, Bahawalpur, Pakistan”.

An author name was incorrectly written as “Rana Rashid Iqbal”. The correct spelling is “Rashid Iqbal”.

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
