In the published article, there was an error in [Supplementary Text 1](#). The file ([Supplementary Datasheet 10](#)) containing taxonomic changes was uploaded in Word format (.docx). This violates Art. 29.1 of the International Code for Botanical Nomenclature for effective publication. In order for the new botanical names to be duly registered, the Word file has been replaced by a PDF file. There was no error in the file text. The new file for [Supplementary Text 1](#) in the correct format appears below.
