## KEYWORDS

delirium, delirium subtypes, measurements, nursing assessment, assessment frequency

## A Corrigendum on

[Knowledge, attitude, and practice toward delirium and subtype assessment among Chinese clinical nurses and determinant factors: A multicentre cross-section study](#)

By Zhou W, Zheng Q, Huang M, Zhang C, Zhang H, Yang L, Wu T and Gan X (2023). *Front. Psychiatry* 13:1017283. doi: 10.3389/fpsy.2022.1017283

In the published article, there was an error in affiliations 1 and 2.

The affiliations read: “1 The Second Department of Nursing School, Chongqing Medical University, Chongqing, China”

“2 Department of Nursing, Second Affiliated Hospital, Chongqing Medical University, Chongqing, China”

They have been corrected to: “1 Department of Nursing, Second Affiliated Hospital of Chongqing Medical University, Chongqing, China

“2 The Second Department of Nursing School, Chongqing Medical University, Chongqing, China”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

The original article has been updated.
