In the original article, there was a mistake in **Figure 1** as published. In the section that lists the number of full-text articles excluded and the reasons for exclusion, 15 articles listed as “Out of topic” were missing. By including these 15 articles, the total amount of articles excluded adds up to the stated 57. The corrected **Figure 1** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
