KEYWORDS

semantic content category, language corpus, Mandarin-speaking children, cognitive and syntactic complexity, acquisition

A corrigendum on

[Corpus of Mandarin Child Language: a preliminary study on the acquisition of semantic content categories in Mandarin-speaking preschoolers](#)

by Tang, T. P.-Y., Lau, D. K.-Y., and Leung, M.-T. (2023). *Front. Psychol.* 14:1234525. doi: 10.3389/fpsyg.2023.1234525

In the published article, there were errors in [Table 8](#) as published. The line indicating the percentage of the occurrence of different semantic content categories for Reject, Denial, Additive, Recurrence and Adversative was incorrect. The corrected [Table 8](#) appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
