A corrigendum on

Disentangling motivation and engagement: Exploring the role of effort in promoting greater conceptual and methodological clarity

by Nagy, R. P., Martin, A. J., and Collie, R. J. (2022). *Front. Psychol.* 13:1045717.

In the published article, there was an error in **Supplementary Table S3**. The second item (Cognitive Effort) should say “I focus well, stay on task, and pay attention” but it mistakenly said “I focus well, am on task, and get involved in activities”.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original Supplementary material has been updated.
