## KEYWORDS

relative deprivation, cognitive reappraisal, expressive suppression, empathy, prosocial behavior

## A corrigendum on

[Cognitive reappraisal and empathy chain-mediate the association between relative deprivation and prosocial behavior in adolescents](#)

by Xu, Y., Chen, S., Su, X., and Yu, D. (2023). *Front. Psychol.* 14:1238308. doi: 10.3389/fpsyg.2023.1238308

In the published article, there was an error in the Funding statement. The grant number stated for the “Education Reform Project of Psychology Teaching Steering Committee of Higher Education Ministry of Education (No. 2022012)” was incorrect. The correct Funding statement appears below.

## Funding

This work was funded by the National Education Science “Thirteenth Five-Year Plan” Key Project of the Ministry of Education (No. DBA190307), Education Reform Project of the Psychology Teaching Steering Committee in Higher Education Institutions under the Ministry of Education (No. 20222012), and the University-Industry Cooperation and Collaborative Education Project of the Ministry of Education (No. 220604497155844).

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
