multilingualism, speech perception, third language (L3/Ln), event-related potentials (ERP), mismatch negativity (MMN)

A Corrigendum on

Vowel perception in multilingual speakers: ERP evidence from Polish, English and Norwegian

by Kedzierska, H., Rataj, K., Balas, A., Cal, Z., Castle, C., and Wrembel, M. (2023). *Front. Psychol.* 14:1270743. doi: 10.3389/fpsyg.2023.1270743

In the published article, there was an error in the Funding statement. The funding institution requires a different wording for the Funding statement. The statement originally stated, “The author(s) declare financial support was received for the research, authorship, and/or publication of this article. This research is supported by Norway funds/NCN project grant GRIEG-1 (UMO-2019/34/H/HS2/00495) ADIM “Across-domain investigations in multilingualism: Modeling L3 acquisition in diverse settings”.” The corrected Funding statement is shown below.

Funding

The author(s) declare financial support was received for the research, authorship, and/or publication of this article. The research leading to these results has received funding from the Norwegian Financial Mechanism 2014–2021 project number 2019/34/H/HS2/00495.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
