Corrigendum: Self-rated recovery and mood before and after resistance training and muscle microcurrent application

Bernd A. C. Stößlein and Kim P. C. Kuypers*

Department of Neuropsychology and Psychopharmacology, Faculty of Psychology and Neuroscience, Maastricht University, Maastricht, Netherlands

KEYWORDS

frequency-specific microcurrent, microstimulation, deadlifts, resistance training, self-rated recovery, mood

A Corrigendum on

Self-rated recovery and mood before and after resistance training and muscle microcurrent application

by Stößlein, B. A. C., and Kuypers, K. P. C. (2022). *Front. Psychol.* 13:836695. doi: 10.3389/fpsyg.2022.836695

In the published article, there was an error in the **Conflict of Interest**. The statement was missing a disclosure for Author Bernd A. C. Stößlein.

The original Conflict of Interest previously stated:

“The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The corrected statement appears below:

Conflict of interest

BS is employed by Bernd Stößlein Personal Training (BSPT)-Studio. He received adhesive patches from JeeCee to use in the study.

The remaining author declares that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
