## KEYWORDS

interactive health communication technologies, hybrid designs, complex interventions, cancer care, telehealth

## A corrigendum on

[Beyond effectiveness evaluation: Contributing to the discussion on complexity of digital health interventions with examples from cancer care](#)

by Ventura, F., Brovall, M., and Smith, F. (2022). *Front. Public Health* 10:883315. doi: 10.3389/fpubh.2022.883315

In the published article, there was an error in the Funding statement. The funding statement displayed the Health Sciences Research Unit- Nursing (UICISA: E) hosted by the Nursing School of Coimbra (ESENFC), Coimbra, Portugal as one of the funding parties, as follows “This article processing charges and submission fees were partially commissioned by the Health Sciences Research Unit- Nursing (UICISA: E) hosted by the Nursing School of Coimbra (ESENFC), Coimbra, Portugal.” The correct Funding statement appears below.

## Funding

This study is partially funded by National Funds through the FCT - Foundation for Science and Technology, I.P., within the

scope of the project Ref<sup>a</sup>. UIDB/00742/2020. The study of FV was funded by FCT, CEECINST/00103/2018. The funders had no role in the article.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
