Corrigendum: Gender differences in tuberculosis incidence rates—A pooled analysis of data from seven high-income countries by age group and time period

Victoria Peer*, Naama Schwartz and Manfred S. Green

School of Public Health, University of Haifa, Haifa, Israel

KEYWORDS

tuberculosis, sex differences, gender, meta-analysis, meta-regression, male-to-female, incidence rate ratio

A corrigendum on

Gender differences in tuberculosis incidence rates—A pooled analysis of data from seven high-income countries by age group and time period

by Peer, V., Schwartz, N., and Green, M. S. (2023). *Front. Public Health* 10:997025.
doi: 10.3389/fpubh.2022.997025

In the published article, there was an error in [Table 2](#) as published. The same [Table 2](#), Sensitivity analysis by years (after excluding group of years at a time), appears twice as a duplicate table in the “Results” section. The corrected [Table 2](#) and its caption appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
